First idea which comes to your mind when you hear ... LITHUANIA

The best experience that I have ever had. Amazing time of my life that I won't ever forget. It will be so hard to leave. The first thing, the hardest one, will be to leave all my new friends here.

Your desire for the future

I will finish my last school year after my practice training in Japan. I want to find a job which make me travel a lot (as many as possible). And finally become an export manager. I'm sure that I will come back in Lithuania. I already thought about ask the AWEX office in Lithuania for a first job... But it's just huge projects at the moment. The future can always change! ☺

Your favourite activities organized during your stay

If I had to choose one, the camp Zilvitis.. but all the activities were perfect! (the only annoying thing is that most of them are mainly in Lithuanian language) => Parties in Marselis, Nida, Vilnius, The Horror short movie, and the conference. The Basketball trainings are the second great activity for me! Students are playing all together, make sport, have fun and make acquaintance with each other.
